Exxon Valdez Oil Spill Symposium

Abstract Book

Sponsored by:

**Exxon Valdez Oil Spill Trustee Council
University of Alaska Sea Grant College Program
American Fisheries Society, Alaska Chapter**

February 2-5, 1993

Anchorage, Alaska

Exxon Valdez Oil Spill Trustee Council

Mike Barton, Regional Forester, U.S. Department of Agriculture, Forest Service

Charles Cole, Attorney General, State of Alaska, Department of Law

Curt McVee, Special Assistant to the Secretary, U.S. Department of the Interior

Steve Pennoyer, Director, National Oceanic and Atmospheric Administration,
National Marine Fisheries Service

Carl Rosier, Commissioner, Alaska Department of Fish and Game

John Sandor, Commissioner, Alaska Department of Environmental Conservation

Symposium Planning Committee

Byron Morris, National Oceanic and Atmospheric Administration

Bruce Wright, National Oceanic and Atmospheric Administration

Kelly Hepler, Alaska Department of Fish and Game

L.J. Evans, Alaska Department of Environmental Conservation

Brenda Baxter, Alaska Sea Grant College Program

Karen Oakley, U.S. Fish and Wildlife Service

To obtain additional copies of this book, contact:

The Oil Spill Public Information Center

645 G Street, Anchorage, Alaska 99501

907/278-8008

Toll-free within Alaska: 1-800-478-7745

Toll-free outside Alaska: 1-800-283-7745

Acknowledgements

The following people are gratefully acknowledged for making this symposium and abstract book possible: Bob Spies, L.J. Evans, Bruce Wright, Margaret Leonard, and Carrie Holba for editing and compiling this book;

Bruce Wright, Byron Morris, Kelly Hepler, L.J. Evans, Brenda Baxter and Karen Oakley for coordinating the symposium;

Douglas Wolfe, Robert Spies, David Shaw and Pamela Bergman for review of the abstracts; Karen Sager for her administrative support; and Carrie Holba, Jeff Lawrence, Heidi Vania, and Peg Thompson, the staff of OSPIC, for providing professional, cheerful assistance in a myriad of ways.

CONTENTS

Plenary Session

So Why Can't Science Tell Us More About the Effects of the Exxon Valdez Oil Spill?

Robert B. Spies, *Applied Marine Sciences* 1

Fate of the Oil Spilled From the T/V Exxon Valdez in Prince William Sound, Alaska

Douglas A. Wolfe², M.J. Hameedi¹, J.A. Galt¹, G. Watabayashi¹, Jeffrey W. Short¹, C.E. O'Clair, Stanley Rice¹, J. Michel², James R. Payne³, Joan F. Braddock⁴, S. Hanna⁵, and David M. Sale⁶, ¹National Oceanic and Atmospheric Administration; ²Research Planning, Inc.; ³Sound Environmental Services Inc.; ⁴University of Alaska Fairbanks; ⁵Sigma Research Corporation; ⁶SnowOtter Environmental Consulting 6

The Exxon Valdez Cleanup: The First Six Months

Vice Admiral Clyde E. Robbins, *U.S. Coast Guard* 10

Cultural Resources and the Exxon Valdez Oil Spill

Judith E. Bittner, *Alaska Department of Natural Resources* 13

Subsistence

James A. Fall, *Alaska Department of Fish and Game* 16

Overview of Intertidal Processes, Damages, and Recovery

Charles H. Peterson, *University of North Carolina* 19

Subtidal Oil Contamination and Biological Impacts

Stanley Rice, Bruce A. Wright, Jeffrey W. Short, and C.E. O'Clair
National Oceanic and Atmospheric Administration 23

Summary of Injury to Fish and Shellfish Associated With the Exxon Valdez Oil Spill

Charles P. Meacham and Joseph R. Sullivan,
Alaska Department of Fish and Game 27

How Do You Fix the Loss of Half a Million Birds?

D. Michael Fry, *University of California Davis* 30

Effects of the Exxon Valdez Oil Spill on Marine Mammals in Prince William Sound

Kathryn J. Frost¹, Brenda E. Ballachey², Marilyn E. Dahlheim³,
and Thomas R. Loughlin³
¹Alaska Department of Fish and Game; ²U.S. Fish and Wildlife Service;
³National Oceanic and Atmospheric Administration 34

Restoration Planning Following the Exxon Valdez Oil Spill

John A. Strand, *National Oceanic and Atmospheric Administration* 37

Fate and Toxicity

Tracking Exxon Valdez Oil from Beach to Deep-water Sediments of Prince William Sound, Alaska

Paul R. Carlson and Keith A. Kvenvolden, *U.S. Geological Survey* 43

Characterization of Residual Oil in Prince William Sound, Alaska—3.5 Years Later <i>Paulene O. Roberts¹, Charles B. Henry Jr.¹, Edward B. Overton¹, and Jacqueline Michel²</i> ¹ Louisiana State University; ² Research Planning, Inc.	46
Toxicity of Intertidal and Subtidal Sediments Contaminated by the Exxon Valdez Oil Spill <i>Douglas A. Wolfe¹, Margaret M. Krahn¹, Ed Casillas¹, K. John Scott², John R. Clayton, Jr.², John Lunz², James R. Payne³, and Timothy A. Thompson²</i> ¹ National Oceanic and Atmospheric Administration; ² Science Applications International Corp.; ³ Sound Environmental Services, Inc.	48
Microbial Activity in Sediments Following the T/V Exxon Valdez Oil Spill <i>Joan F. Braddock¹, Jon E. Lindstrom¹, Thomas R. Yeager¹, Brian T. Rasley¹, Gregory Winter², and Edward J. Brown³</i> ¹ University of Alaska Fairbanks; ² Alaska Department of Environmental Conservation ³ ; University of Northern Iowa	52
Contamination of Subtidal Sediments by Oil From the Exxon Valdez in Prince William Sound, Alaska <i>C.E. O'Clair, Jeffrey W. Short, and Stanley Rice</i> National Oceanic and Atmospheric Administration	55
Determination of Petroleum-derived Hydrocarbons in Seawater Following the Exxon Valdez Oil Spill I: Analysis of Seawater Extracts <i>Jeffrey W. Short and Patricia Rounds</i> National Oceanic and Atmospheric Administration	57
Methods for Determining Crude Oil Contamination in Sediments and Biota After the Exxon Valdez Oil Spill <i>Margaret M. Krahn, Gina M. Ylitalo, Douglas G. Burrows, Jon Buzitis, Sin-Lam Chan, and Usha Varanasi</i> National Oceanic and Atmospheric Administration	60
Qualitative and Quantitative Determination of Exxon Valdez Crude Oil in Sediment Samples Using Principal Component Analysis of Hydrocarbon Data <i>Jeffrey W. Short and Ronald A. Heintz, National Oceanic and Atmospheric Administration</i>	63
Nearshore Subtidal Transport of Hydrocarbons and Sediments Following the Exxon Valdez Oil Spill <i>David M. Sale¹, James Gibeau², and Jeffrey W. Short³</i> ¹ SnowOtter Environmental Consulting; ² University of Texas at Austin; ³ National Oceanic and Atmospheric Administration	64
Clean-up and Treatment Effects Short-term Biological Effects of Shoreline Treatment on Intertidal Biota Exposed to the Exxon Valdez Oil Spill <i>D.C. Lees¹, W.B. Driskell², and J.P. Houghton³</i> ¹ Ogden Environmental and Energy Services Company; ² Consultant; ³ Pentec Environmental, Inc.	69
Growth and Survival of the Predatory Snail <i>Nucella lamellosa</i> in Areas Exposed to the Exxon Valdez Oil Spill <i>T. Ebert¹, D.C. Lees², and H. Cumberland²</i>	

¹ San Diego State University; ² Ogden Environmental and Energy Services Co. Inc.	75
Recovery of Prince William Sound Intertidal Infauna from Exxon Valdez Spill and Treatments 1990-1992	
J.P. Houghton ¹ , A.K. Fukuyama ¹ , W.B. Driskel ² , D.C. Lees ³ , Gary Shigenaka ⁴ , and A.J. Mearns ⁴	
¹ Pentec Environmental, Inc.; ² Consultant; ³ Ogden Environmental and Energy Services Company, Inc.; ⁴ National Oceanic and Atmospheric Administration	75
Recovery of Prince William Sound Intertidal Epibiota from the Exxon Valdez Spill and Treatments—1990-1992	
J.P. Houghton ¹ , A.K. Fukuyama ¹ , D.C. Lees ² , W.B. Driskel ² , A.J. Mearns ⁴ , and Gary Shigenaka ⁴ , ¹ Pentec Environmental, Inc.; ² Ogden Environmental and Energy Services Company, Inc.; ³ Consultant; ⁴ National Oceanic and Atmospheric Administration	
	79
NOAA's Long-term Ecological Recovery Monitoring Program: Overview and Implications of Recovery Trends and Treatment Effects	
Alan J. Mearns and Gary Shigenaka, National Oceanic and Atmospheric Administration
