Aquaculture

Chicago is one of the five largest seafood markets in the United States, but most fish eaten in this region comes from somewhere else. The Midwest also has a convenient supply of corn and soybeans for low-cost fish feed. Consequently, more farmers in Illinois and Indiana are interested in raising fish, particularly as a way to add income to their existing farming operation.

Illinois-Indiana Sea Grant provides new and existing producers with state-of-the-art information on economic, marketing, and technical topics on production methods, species selection, and marketing techniques. The program shares the result of applied research and offers demonstrations to producers on effective techniques for fish production, and provides access to quality-based information on aquaculture and to experts through AquaNIC, a Web gateway to the world of aquaculture.

FARM RAISED FISH SERIES
These fact sheets contain helpful information for any aquaculture setup.
First copy $1; additions $.25.
Angelfish AS-496
Bluegill AS-467
Channel Catfish AS-498
Freshwater Shrimp AS-513
Hybrid Striped Bass AS-499
Northern Crayfish AS-500
Largemouth Bass AS-501
Rainbow Trout AS-502
Tilapia AS-494
Walleye AS-493
Yellow Perch AS-495

A BASIC OVERVIEW OF AQUACULTURE
Discusses history of aquaculture, water quality requirements, types of aquaculture, and different production systems.
For a general audience. 11pp.
IL-IN-SG-E-90-2 $3

CAGE CULTURE OF FISH IN THE NORTH CENTRAL REGION
Covers site selection, cage construction, species selection, feeding, harvesting, marketing, overwintering, and management. Useful to small pond or lake owners with ponds too deep to harvest using seines. 13pp.
NCRACTB #110 $2

A FISH FARMER’S GUIDE TO UNDERSTANDING WATER QUALITY
Helps fish farmers better understand properties of water as they affect fish culture. Includes water issues such as physical characteristics, balance in fish, sources, quantity, physical factors, and chemical factors. 8pp.
AS-503 $2

NICHE MARKETING YOUR AQUACULTURE PRODUCTS
Contains marketing competition, species selection, product, price, promotion, and market location information. 12pp.
NCRACTB#107 $2

AQUACULTURE PROCEDURES
Analyzing the Profitability of Hybrid Striped Bass Cage Culture
AS-487 $1.25

Diagnosis and Treatment of Aeromonas hydrophila Infection of Fish
AS-461 $0.75

Diagnosis and Treatment of “Ich” or Whitespot Disease of Fish
AS-459 $0.75

Diagnostic Services in Illinois and Indiana
AS-463 $2.25

Reproduction of Angelfish
AS-489 $2.75

Transport of Fish in Bags
AS-462 $1.75

The Use and Application of Salt in Aquaculture
AS-458 $0.50

Water Sources Used in Aquaculture
AS-486 $2

ORDER ILLINOIS-INDIANA SEA GRANT PUBLICATIONS ON A VARIETY OF SUBJECT AREAS AT www.iisgcp.org

GETTING STARTED IN FRESHWATER AQUACULTURE
CD-ROM and workbook introduces future aquaculturists to areas they must consider upon the onset of such a career. Focuses on aspects of biology, water quality of production systems, marketing, and business planning. 208pp.
IISG-98-18 $54 ($42 for Extension and Sea Grant Outreach Educators)

AQUANIC
http://aquanic.org
Gateway to the world’s electronic resources in aquaculture. Offers publications, newsletters, multimedia, Internet sites, electronic mail, news, lists of species, and discussions groups.

TESTING DISSOLVED OXYGEN USING THE WINKLER METHOD
This CD improves comprehension of basic water chemistry, critical to maintaining healthy fish. High school instructors find dissolved oxygen the most important of 10-15 routine water quality parameters. Targeted primarily to secondary educators and students, and to new producers.
CD-AS-1 $15

FARM-RAISED FISH RECIPES
Savor five recipes from Illinois-Indiana Sea Grant. These will enhance any meal and might inspire you to learn more about aquaculture.
IISG-00-5 Free, plus shipping
