**Aquaculture**

**SUPPLIERS OF AERATION EQUIPMENT**

compiled by Dave Landkamer and Tom Szendry

Aeration is one of the most important and commonly applied management practices used in aquaculture to improve water quality. There are several types of aerators used in aquaculture, but they all operate on the general principle of increasing the surface area contact between water and air to facilitate oxygen transfer. Each type of aerator has advantages and disadvantages that must be considered when choosing aeration equipment for a given situation. This list provides information on the type of equipment available from some of the manufacturers of aeration equipment.

**Aeration Industries, Inc.**  
 P.O. Box 59144  
 Minneapolis, MN 55459  
 612-448-6789

Propeller-Aspirator

**CIRCULATING COPY**

*Inclusion on this list does not imply endorsement of the equipment by the University of Minnesota, nor is there any intention to exclude any suppliers.*

The Minnesota Extension Service (MES) is the outreach arm of the University of Minnesota that offers researched-based information and education. It seeks to enable people to foster full development of youth, adults, families and communities; to improve our economy, especially the food and fiber section, and to provide effective natural resource management.

Minnesota Sea Grant is a statewide program that supports research, extension, and educational programs related to Lake Superior and the Great Lakes. It is part of the National Sea Grant Program, which supports research in 31 coastal and Great Lakes states. Sea Grant Offices are located on the Duluth and St. Paul campuses of the University of Minnesota. The extension Program is part of the Minnesota Extension Service.

David J. Landkammer is an assistant professor of fisheries in the Department of Fisheries and Wildlife and a Minnesota Extension Service/Sea Grant assistant extension specialist. Tom Zaendry is a student assistant working in the aquaculture extension office.

February 1990

The University of Minnesota is an equal opportunity educator and employer.
