# TABLE OF CONTENTS

## Plenary Session

**Memories of Simplot, Visions of the Future** ................................................................. 10
*Alan Ismond*

## Symposium 1: Fish Health and Welfare

**Major Diseases Encountered in Rainbow Trout Reared in Recirculating Systems** ......................... 12
*Alicia C. Noble*

**Mycobacteriosis in Intensively Cultured Foodfish** ........................................................................ 4
*Stephen A. Smith*

**Streptococcal Infections of Hybrid Striped Bass and Tilapia** ...................................................... 11
*Ana M. Baya, Rosangela B. Navarro and Evan Kotopoulos*

**Nitrate Toxicity: A Potential Problem of Recirculating Systems** .............................................. 8
*Terry C. Hrubec, Stephen A. Smith and John L. Robertson*

**Nutrition of Intensively Raised Foodfish** .................................................................................... 8
*Joseph H. Soares and Brian C. Small*

**Preventive Medicine for Intensively Cultured Foodfish in Recirculating Systems** ....................... 2
*Stephen A. Smith*

## Symposium 2: Business Plans and Management

**The Economics of Recirculating Aquaculture Systems** .......................................................... 19
*Patrick D. O-Rourke*

**Economic Elements of Soft-Shell Crawfish and Alligator Aquaculture Systems** ......................... 7
*Kenneth J. Roberts and Walter R. Keithly*

**Economics of Controlling Catfish Pond Effluents** ....................................................................... 16
*Howard A. Clonts and German A. Cerezo*

**Using Cash Flow Analysis in Recirculating Aquaculture** .......................................................... 12
*Patricia Farish Lacey*

**Marketing Fish and Shellfish Products Grown in a Recirculating Aquacultural Systems (RAS)** ....... 10
*Charles W. Coale, Jr.*

**Aquaculture in Rural Development: The Economic Impact of Recirculating Aquaculture Systems on Rural Communities** ......................................................... 12
*Bradley R. Martens and Ernie W. Wade*

## Symposium 3: Food Safety Issues

**The Effect of Operational Procedures on Fish Grown in Recirculating Aquaculture Systems** ........ 8
*Joe W. Boling, George J. Flick, Jr., Janet B. Webster, Joell Reimert and Geoffrey M. Knobl*

**Microbiological Aspects of Recirculating Aquaculture Systems: Product Quality and Safety** ....... 20
*George J. Flick*

**Utilization of Soft-Shell Crawfish and Alligators Grown in Recirculating Aquaculture Systems** .... 11
*Michael W. Moody*

**Developing and Implementing a HACCP Program for Recirculating Aquaculture Systems: Production Issues** ................................................................................................. 14
*George S. Libey*

**HACCP Program for Disease and Therapeutics for Intensively Cultured Foodfish** ....................... 2
*Stephen A. Smith*
Symposium 4: System Design and Management

Scale-up of Aquacultural Facilities
Fred Wheaton ................................................................. 13

How to Evaluate a Paper System
George S. Libey .................................................................. 9

Application of Ozone to Recirculating Aquaculture Systems
Brian L. Brazil, Steven T. Summerfelt, and George S. Libey .... 16

The Effects of Feed Management on Design and Production Capacity of Recirculating Aquaculture Systems
Steven D. Van Gorder and Jura Jug-Dujakovic ....................... 8

Carbon Dioxide Control in Intensive Aquaculture: Design Tool Development
Brian J. Vinci, Steven T. Summerfelt, Michael B. Timmons and Barnaby J. Watten ........................................ 19

Symposium 5: Waste and Byproduct Recovery

Effluent Treatment and Residuals Management Using Land Application to Recycle
Scott Lindell, Josh Goldman and Roscoe E. Perham, II ..................... 1

Aquaculture Sludge Treatment Using an Anaerobic and Facultative Lagoon System
Shalin Chen, Zheng Ning and Ronald F. Malone ..................... 10

Conveyor Production Strategy Enhances Nutrient Byproduct Recovery from Aquaculture Wastewater

Waste Characterization and Disposal from a Recirculating Aquaculture System Producing Hybrid Striped Bass
Christopher C. Easter, George S. Libey, John T. Novak and Gregory D. Boardman ............................................... 6

Water Treatment and Waste Characterization Evaluation of an Intensive Recirculating Fish Production System
Joanna G. Twarowska, Philip W. Westerman and Thomas M. Losordo ........................................... 12

Symposium 6: Shellfish and Fish Production

Soft Crabs in Closed Systems: A Virginia Success Story
Michael J. Oesterling .......................................................... 6

Design of Recirculating Crawfish Systems Employing Expandable Granular Biofilters
Ronald F. Malone, Kelly A. Rusch and J. Michael Christensen .... 14

Measurements of Metabolic Rates of Sturgeon and Striped Bass under Commercial Culture Conditions
Steven L. Thomas and Raul H. Piedrahita ......................... 13

Energy Conservation and Environmental Improvement in an Intensive Recirculating Alligator Production System
Aurelio A. Delos Reyes, Jr., Ronald F. Malone, Stephen J. Langlinais, Jay V. Huner, Rita Soileau and Kelly A. Rusch ...................... 14

Conversion Efficiency, Growth, and Mortality of White Crappie (Pomoxis annularis) in a Recirculation System
James R. Triplett, Troy Amspacker and George Thomas ............ 10

AES Technical Session 1: Open Papers

Evaluation and Improvements of Solids Removal Systems for Aquaculture
Raul H. Piedrahita, Walter H. Zachritz, II, Kevin Fitzsimmons and Charles Brockway ................................................................. 12

Crossflow Microfiltration System Design for Disinfection of Seawater for Microalgae Culture
Paul L. Hundley, Jr. ................................................................ 12

Effects of Ozone on Microscreen Filtration and Water Quality in a Recirculating Rainbow Trout Culture System
Steven T. Summerfelt, Joseph A. Hankins, Amy L. Weber and Martin D. Durant ................................................................. 12
Comparative Performance of Single-Stage and Two-Stage Pulsed Bed Biological Filters Receiving Recirculating Fish Culture Effluent

Dale C. Honeyfield and Barnaby J. Watten

Design and Evaluation of a Commercial-Scale, Paddle-Washed Floating Bead Filter

Aurelio A. Delos Reyes, Jr. and Ronald F. Malone

Developing Backwash Protocols for Floating Bead Filters: A Model of Solids-Loading and Biofilm-Retention Effects on Nitrification

William Golz, Kelly A. Rusch and Ronald F. Malone

Results of Operation of a Modular Tilapia Growout System by Nutrient Recyclers Incorporated

Harry Fischer and Majid Aroom

Engineering Design of Modular and Scalable Recirculating Systems Containing Circular Tanks, Microscreen Filters, Fluidized-Sand Biofilters, Cascade Aerators, and Low-Head or U-Tube Oxygenators

Steven T. Summerfelt

A Bioengineering Design Procedure for Recirculating Pond Systems

John A. Hargreaves, Martin W. Brunson and Hennan H. Jarboe

Correlation of Particle Size Distribution of Solid Waste to Fish Feed Composition in an Aquaculture Recirculation System

Xingguang Han, Ronald Rosati and James Webb

AES Technical Session 2: Open Papers

Water Quality Modeling for Aquaculture Water Reuse Systems

William S. Brinkop and Raul H. Piedrahita

Development of a Tank-Based Tilapia Industry in Louisiana

C. G. Lutz

Computer Models: Types, Verification, Validation, and Applications in Commercial Recirculating Aquaculture

Bryan C. Tomer and Fred W. Wheaton

Design and Testing of a Second Generation Acoustic Waste Feed Monitor

A Computer-Automated Cold-Weather Recirculating System for Aquaculture Research

Thomas M. Scott and Michael B. Rust

Economies of Scale in Recycle Systems

Edward M. Wade, Steven T. Summerfelt and Joseph A. Hankins

Understanding the Evaluation of Human Dietary Risk from Chemicals Used in Aquaculture: Regulatory Compliance vs. Food Safety

Jane C. Eickhoff and Judith L. Kidwell

Effects of Ozone on Outbreaks of Bacterial Gill Disease and Numbers of Heterotrophic Bacteria in a Trout Culture Recycle System

Graham L. Ballock, Steven T. Summerfelt, Alicia C. Noble, Amy L. Weber, Martin D. Durant and Joseph A. Hankins

Fish Health Status of Aquaculture Recirculating Systems in Virginia: Three Years of Casework

M. David Crosby

A Method for Sampling and Estimating the Thickness of Oil Surface Microlayers in Larviculture Tanks

Charles T. Boggs and Robert C. Summerfelt

Origin of the Oil Film on the Water Surface of Tanks Used for the Mass Culture of Larval Walleye

Charles T. Boggs and Robert C. Summerfelt

Effects of Tank Color and Size on the Success of Training Walleye Fingerlings to Formulated Feed

Tom Harder and Robert C. Summerfelt

Poster Session

Remote Data Acquisition for Alligator Production Energy Conservation Project: Successes and Problems

Stephen J. Langlinais, William Golz and Rita Soileau
